**NOTICE OF VIOLATION**

**Released: July 24, 2012**

By the Resident Agent, Anchorage, Western Region, Enforcement Bureau:

1. This is a Notice of Violation (Notice) issued pursuant to Section 1.89 of the Commission's Rules,<sup>1</sup> to Peninsula Communications Inc., (Peninsula) licensee of AM broadcast station KGTL in Homer, Alaska. This Notice may be combined with a further action, if further action is warranted.<sup>2</sup>

2. On May 17, 2012 agents of the Enforcement Bureau's Anchorage Office inspected the AM broadcast radio station at its main studio at 66060 Diamond Ridge Road, Homer, Alaska and observed the following violations:

- a. 47 C.F.R. § 11.35(a): "EAS Participants must determine the cause of any failure to receive the required tests or activations specified in §§ 11.61(a)(1) and (a)(2). Appropriate entries indicating reasons why any tests were not received must be made in the broadcast station log as specified in §§ 73.1820 and 73.1840 of this chapter for all broadcast streams." At the time of the inspection, Peninsula advised the agents that KGTL was monitoring KTUU as the second monitoring source. The agents reviewed station logs between March 12 and May 17, 2012, and found no entries explaining why KGTL had failed to receive the required weekly tests (RWTs) from KTUU for the weeks of March 11, April 8, and April 15, 2012. Agents also found no entries for the week of April 22, 2012, explaining the reason(s) for the failure to receive the RWTs from the National Weather Service (NWS). Additionally, on April 4, 2012, a handwritten note in the EAS log indicated that KGTL received the required monthly test (RMT) from KTUU at 11:21 a.m.; however, there is no indication or documentation that KGTL transmitted the RMT as required.

- b. 47 C.F.R. § 11.52(d): “EAS Participants must monitor two EAS sources. The monitoring assignments of each broadcast station and cable system and wireless cable system are specified in the State EAS Plan and FCC Mapbook. They are developed in accordance with FCC monitoring priorities.” At the time of the inspection, KGTL was monitoring sources did not comply with the State EAS Plan or a Waiver granted to KGTL.
- c. 47 C.F.R. § 73.3526(e)(2): *Applications and related materials*. “A copy of any application tendered for filing with the FCC, together with all related material, and copies of Initial Decisions and Final Decision in hearing cases pertaining thereto. If petitions to deny are filed against the application and have been served on the applicant, a statement that such a petition has been filed shall be maintained in the file together with the name and address of the party filing the petition.” FCC records indicate that an application for an engineering Special Temporary Authority was filed on February 13, 2009 and accepted for filing on February 17, 2009. A copy of this application was not located in the public file. In addition, KGTL advised the agents of a filing of petition to deny KGTL’s renewal. At the time of the inspection, the agents did not locate the required statement of such action in the file.
- d. 47 C.F.R. § 73.3526(e)(4): *Contour Maps*. “A copy of any service contour maps, submitted with any application tendered for filing with the FCC, together with any other information in the application showing service contours and/or main studio and transmitter location (State, county, city, street address, or other identifying information).” At the time of the inspection, the agents did not locate a service contour map submitted with any application tendered for filing. The agents however did find a separately generated coverage map, developed by the licensee appearing to be for their sales or station promotion.
- e. 47 C.F.R. § 73.3526(e)(5): *Ownership reports and related materials*. “A copy of the most recent, complete ownership report filed with the FCC for the station, together with any statements filed with the FCC certifying that the current report is accurate, and together with all related material.” At the time of the inspection, the file did contain an ownership report dated December 10, 2009. The agents did not locate the 2011 biennial ownership report.

3. As the nation’s emergency warning system, the Emergency Alert System is critical to public safety, and we recognize the vital role that broadcasters play in ensuring its success. The Commission takes seriously any violations of the Rules implementing the EAS and expects full compliance from its regulatees. We also must investigate violations of other rules that apply to broadcast licensees. Pursuant to Section 403 of the Communications Act of 1934, as amended,<sup>3</sup> and Section 1.89 of the Commission's Rules, we seek additional information concerning the violation and any remedial actions the station may have taken. Therefore, Peninsula Communications Inc., must submit a written statement concerning this matter within twenty (20) days of release of this Notice. The response (i) must fully explain each violation, including all relevant surrounding facts and circumstances, (ii) must contain a statement of the specific action(s) taken to correct each violation and preclude recurrence, and (iii) must
